

Combined League Player List: 2018-19 Winter Game Using Players from 1981-1984

This player list has had 1000 added to NL player's numbers.

This file shows the statistics that will actually be used in a B.L. (combined A.L./N.L.). ERAs for N.L. pitchers differ from those in real life because of the presence of a DH, thus making the league average ERAs different.
