

SCORESHEET BASEBALL

This year's *ScoreSheet Baseball* off-season game will use major league players and their stats from years 1988-1991. The scoresheet below is a sample of what you will receive for each of the 144 games your team will play this winter. (Of course, the scoresheets you receive will show players you drafted, and will reflect the managerial strategies you've used.) Each week you'll receive 12 scoresheets, along with league standings, scores of all other games, individual and team stats, trade information, and a weekly newsletter.
